

RICHARD JAMES

Richard James, Founder and President of Automated Business Results, has earned a reputation as a national "Legal Systems Expert."

He built a consumer law firm in Arizona from zero to over \$3.5 million in annual sales in just over two years. His legacy also includes a career of building businesses in five different industries bringing his proven formula to each to achieve success.

His success ingredient is simple: systems. Richard believes that systems should run your law firm and people should run your systems.

Author of two books for attorneys, *The DNA of the Autonomous Attorney* and *Discover The Acres Of Diamonds In Your Law Firm*, Richard has devised a process for helping attorneys build a practice that supports their lifestyle, not undermines it.

Richard's passion is to work with like-minded Entrepreneurial Attorneys, who want to take action to build the systems they create together to obtain, real, measurable results. Grab a free copy of the *DNA of the Autonomous Attorney* by going to www.TheRichardJames.com/DNAFreeBook
