

RICHARDJAMES

FACT SHEET

Mission Statement

Our driving purpose is to work with as many like-minded entrepreneurial attorneys who actually want to take action on the systems we work on and obtain measurable results.

What sets Richard James and Automated Business Results apart from others?

As a lifetime entrepreneur I know what it takes to improve any business and have experience and expertise to help. At my heart I am a results guy and that is the standard I hold myself to with every client - getting real measurable results. It is my driving purpose to help you build a law firm that supports your lifestyle, not undermine it. I have the track record and client stories that prove what I help them to implement in their firm is not theory, but actually works in the real world.
